

PORT & TERMINAL OPERATIONS

We have presentations from our new Member Terminals introducing us to their specific challenges:

- **Kevin Glover** of SeaGate Terminals, Georgia, USA
- **Rodney Corrigan** of Logistec Terminals, Québec, Canada
- **Craig Olley** of Neptune Terminals, BC, Canada
- **Robert Booker** of Trigon Terminals, BC, Canada

The Port of Vancouver, represented by their Vice President Operations, **Shri Madiwal** will focus on the dry bulk terminal landscape in BC, Canada.

WORKSHOP SESSIONS

Successful in Amsterdam, we have decided to continue with our separate workshops where 2 companies will be able to show their innovative products to a directly interested group of delegates. We will have **Firefly, Raúl Moreno**, with a workshop on prevention and detection of explosions and fire. Next to this we will have an innovative workshop with **Isabel Sum of Arinto** on a vessel pre-planning instrument as developed by them and with an offer to our Members.

TECHNICAL SESSION

In our technical session, we have 2 specific items to share with our delegates. **Steve Yee of CWA, Canada**, will show a case where CWA assisted a terminal expanding their activities without using additional space. By optimizing their terminal systems, the terminal was able to handle sincerely more volumes. **Rudi Bovée of Nemaq** grabs will show a case with VLI (Brasil) where a CSU for grain unloading was replaced by grab unloading with harbor cranes.

Of course we have plenty space for networking and we will have a festive dinner, with a great view on the bays of Vancouver.

REGISTRATION CONFERENCE AND ROOM RESERVATION

You can register via the meeting registration form at our website. The Conference takes place in the Westin Bayshore Hotel in Vancouver. You can also register for the Golf Tournament (the Cooper Cup) on Monday 13th of May 2024 . You can already book your room at Westin Bayshore Hotel with Group discount via our website drybulkterminals.org.
